CAMBERWELL. S

H. R. PALMER,

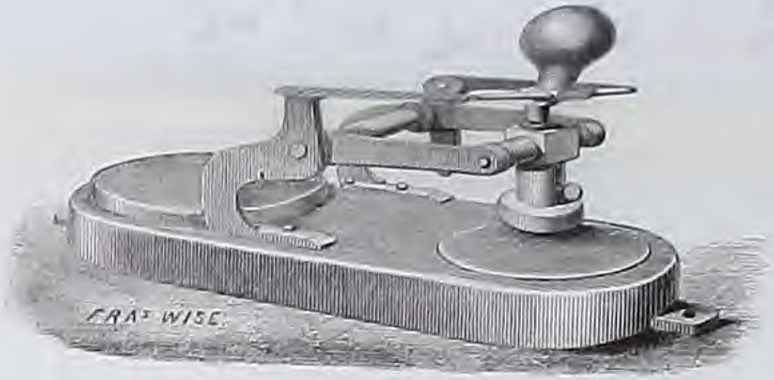
ENGINEER;

PATENTEE AND MANUFACTURER OF THE PARALLEL MOTION ENDORSING MACHINES; STAMPING, EMBOSSING, AND COPYING PRESSES; ENGINES, LATHES, &c. &c.

MANUFACTORY, 308 ALBANY ROAD, CAMBERWELL, LONDON, S.

H. R. P. begs to thank those who have hitherto favoured him with their orders, and to announce his removal from Waterloo Road to more convenient premises at the above address, where, in addition to continuing the general business of an Engineer and Tool Maker, he has provided extended arrangements for the manufacture of his improved Stamping and Embossing Presses, as also for the more rapid production of his Patent Parallel Motion Stamping and Endorsing Machines.

Presses, as also for the more rapid production of his Patent Parallel Motion Stamping and Embossing Endorsing Machines.



BY HER MAJESTY'S ROYAL LETTERS PATENT.

PALMER'S PARALLEL MOTION ENDORSING MACHINE

(TO BE OBTAINED OF ALL STATIONERS).

The merits of this Machine, as now extensively used in the principal Government Offices, the British Museum, and elsewhere, are daily becoming more generally known, and causing a steadily increasing demand. In addition to its acknowledged importance as employed by Bankers, Merchants, Tradesmen, and others, for endorsing, &c. upon paper or card, it is equally applicable, and effects a similar saving of time, when made use of for printing upon other substances. In proof of this, it will be sufficient to mention, that for the "Great Eastern" steam-ship upwards of eight thousand pieces of linen were indelibly and perfectly marked, by means of one Machine, in the course of a single day. It also effects a considerable saving in the amount of ink employed; as, for example, upon the number of articles stamped, as described, for the "Great Eastern," the saving in ink alone amounted to about 30*s*. These Machines can be fitted direct upon counters, &c. (without the base plate, as represented), and can also be arranged to work by foot or other power. Parties having hand stamps can have them fitted to the Machine. For Prices, see over.
